Application Menu

project table

Update Delete

An application menu is a group of modules in the application navigator. Choose the roles that are required to access the application and add or remove modules in the related list below. [More Info](#)

* Title

project table

Application

Global

Active

☒

Restricts access to the specified roles. Otherwise, all users can view the application menu when it is active.

Roles

project member

Specifies the [menu category](#), which defines the navigation menu style. The default value is Custom Applications.

Category

Custom Applications

The text that appears in a tooltip when a user points to this application menu
